GITAM INSTITUTE OF NURSING

STATE LEVEL WORKSHOP

ON

INNOVATIVE CLINICAL  
EVALUATION STRATEGIES

ON 14<sup>TH</sup> NOVEMBER 2018

2018

Gandhi Institute of Technology and Management, popularly known as GITAM, was founded in 1980 by (Late) Dr.M.V.V.S.Murthi, former Member of Parliament and popular philanthropist. The Institute of Nursing is located in the main campus at GITAM, Visakhapatnam. It has been established to provide quality Education in nursing to meet the ever growing need for qualified nurses in the country.

The assessment of knowledge and skills of nursing students is very essential in nursing programs because they need to demonstrate competencies and confidence in the performance of clinical skills. Objective Structured Clinical Examination Method (OSCE) was developed recently, to assess the nursing students competencies at clinical area objectively in a simulated environment, compared to traditional methods of evaluation like clinical practical examination, viva voce etc. Observational check-lists and Rating scales are frequently used to evaluate the nursing student's performance.

This one day workshop is designed to introduce the basic concept of different clinical evaluation methods.

The eminent speakers enhance your knowledge and skills, which helps to foster evaluation in clinical care setting.

The **target** group for this workshop are MSc nursing students, NPCC, undergraduate students, nurse administrators and teaching faculty in nursing.

**AIM:** To empower teacher and students, to transfer the learning experiences into clinical evaluative practices.

**OBJECTIVES:**

1. To understand the various clinical evaluation methods
2. To develop skills in conduction of objective structured clinical examination method.(OSCE)
3. To Utilize Check-list as an evaluative tool for clinical assessment.
4. To gain expertise in developing Rating scale.

5. To develop an understanding about Anecdotes and Simulation evaluation methods
